

~~ER-5-1-11~~

7 April 1954

MEMORANDUM FOR THE RECORD

SUBJECT: Management Staff/Inspector General Relationship.

1. [redacted] and I met on 6 April to discuss this subject. I pointed out to [redacted] that depending upon the interpretation placed upon the statement of functions for the Inspector General as currently set forth in Agency Regulations there could be a substantial conflict in the roles of the Management Staff and the Office of the Inspector General. I emphasized, however, that as long as there was an understanding as to how the Management Staff should coordinate with the Office of the Inspector General no areas of conflict need exist necessarily.

2. It was agreed that it was not feasible to draw a line clearly separating the two functions inasmuch as the Inspector General, in making over-all inspections, must necessarily consider management as well as other aspects of the offices concerned. However, it was also agreed that in the future the Inspector General would depend upon the Chief, Management Staff to provide appropriate management studies for inclusion in over-all inspection reports.

3. It was understood that personnel undertaking management studies in connection with inspections made by the Office of the Inspector General would be responsible to the Chief, Management Staff.

4. [redacted] to attend his monthly staff meetings and also indicated that he would be glad to make available to him complete reports of inspections of the various components of the Agency conducted by his Office.
